Email: amitrانjan6458@gmail.com

Mobile: +91-8709522829

SKILLS

- **Languages:** C++, C, Java, Python
- **Frameworks:** HTML, CSS, NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn
- **Tools/Platforms:** MySQL, Git, GitHub, Power BI, Cisco Packet Tracer, Linux, Windows, Docker
- **Soft Skills:** Problem-Solving, Teamwork, Time Management, Adaptability

PROJECTS

QR Based University Gate Entry System | [GitHub](#)

Nov' 25 – Dec' 25

- Architected a live QR-based university gate entry system to streamline and secure campus access management, reducing manual verification time by approximately 40%.
- Integrated student registration, automatic QR code generation, mobile-based entry confirmation (Accept/Reject), and a real-time security dashboard and scalable access for 500+ daily users.
- Architected a complete DevOps pipeline integrating Maven, Docker, and CI/CD automation and containerized deployment.

Tech stack: Java, Servlets, JSP, JDBC, H2/MySQL, Maven, Docker

Loan Predictive Analytics | [GitHub](#)

Oct' 25 – Nov' 25

- Built a loan analytics system to determine approval status powered by multiple machine learning techniques for reliable risk assessment.
- Trained and evaluated models including Logistic Regression, Decision Tree, KNN, Naive Bayes, SVM, Linear Regression, K-Means, and PCA for performance comparison.
- Applied preprocessing methods such as label encoding, feature selection, and dimensionality reduction to improve overall accuracy.
- Performed exploratory data analysis (EDA) using visualization libraries to identify key factors influencing loan approval and detect patterns, trends, and outliers in the dataset.

Tech stack: Python, Pandas, NumPy, Matplotlib, Seaborn

CERTIFICATES

- Cloud Computing | [LINK](#) Nov' 25
- Python Fundamentals for Beginners | [LINK](#) Nov' 25
- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | [LINK](#) Aug' 25
- Responsive Web Design | [LINK](#) Oct' 23

TRAINING

Cipher School: Data Structures and Algorithm using C++

Jun' 25 – Jul' 25

- Gained strong understanding of core DSA concepts, including arrays, linked lists, stacks, queues, trees, graphs, sorting, and searching.
- Performance evaluated as Satisfactory, demonstrating consistent engagement and learning competence.
- Developed problem-solving skills through hands-on coding practice and algorithmic challenges.

EDUCATION

Lovely Professional University

Bachelor of Technology - Computer Science and Engineering; **CGPA: 8.29**

Phagwara, Punjab

Aug' 23-Present

Munam Public School

Intermediate; **Percentage: 78.6**

Hazaribagh, Jharkhand

Apr' 22 – Mar' 23

Angel High School

Matriculation; **Percentage: 91**

Hazaribagh, Jharkhand

Apr' 20 – Mar' 21
